New York, NY 10016

To whom it may concern,

I highly recommend Sidiq Daniel as an employee at your organization. I have worked with him independently as a resource and consultant to create streamline processes and develop programs where there were nonexistent existent using computer technology. He was able to use his expertise and innovative skills to guide my team on a few large projects including security of data analytics, management of information on employee education, certifications for over 3000 nursing employees, creating secure dashboards for nursing quality metrics, patient experience data and performance improvement initiatives, and nursing research data. Our goal was to transform the department using updated secure technology to have processes in place to build, streamline, tract, and maintain pertinent data to achieve nursing excellence accreditation for the facility.

Sidiq's knowledge, guidance, and technical skills were invaluable to a system that partially operated on paper record collection with several deficiencies of programs that do not interface. It was a pleasure to have him as a consultant to gauge and guide the success of my work and clinical business analytics team. Sidiq was extremely professional, easy to work with, reliable, dedicated and focused. He brought enthusiasm when sharing our possibilities, which was insightful and inspirational knowing that we had a great

opportunity to achieve our goals. His knowledge and critical thinking delivered resolutions where challenges existed which also speaks to his resourcefulness.

I have recommended Sidiq's services to many other professional and personal colleagues and they have been highly satisfied with his work. I will continue to utilize his services and expertise wherever I go because I trust his work and his high level of integrity. I assure you that you will not be disappointed in making the decision to have Sidiq Daniel on your team. He is extremely talented. Please feel free to contact me with any questions.

Best Regards,

Dr. R Martelly DNP, MBA, MSN, RN, NEA-BC
